*As there are different certification requirements in different markets, please contact your local Znshine sales representative for the specific certificates applicable to the products in the region in which the products are to be used.

*Please check Limited Warranty for Standard PV Modules which is officially released by ZNSHINE PV-TECH Co.,Ltd.

Key Features

Excellent Cells Efficiency

SMBB technology reduce the distance between busbars and finger grid line which is benefit to power increase.

Better Weak Illumination Response

More power output in weak light condition, such as haze, cloudy, and early morning.

Anti PID

Ensured PID resistance through the quality control of cell manufacturing process and raw materials.

Adapt To Harsh Outdoor Environment

Resistant to harsh environments such as salt, ammonia, sand, high temperature and high humidity environment.

TIER 1

Global, Tier 1 bankable brand, with independently certified advanced automated manufacturing.

Excellent Quality Management System

Warranted reliability and stringent quality assurances well beyond certified requirements.

Bifacial Technology

Up to 25% additional power gain from back side depending on albedo.

PACKAGING CONFIGURATION *

Piece/Box	36
Piece/Container(40'HQ)	720
*Customized packaging is available upon request.	
*Remark: Electrical data in this catalog do not refer to a single module and they are not part of the offer.	
They only serve for comparison among different module types.	
*Caution: Please be kindly advised that PV modules should be handled and installed by qualified people who have professional skills and please carefully read the safety and installation instructions before using our PV modules.	

*Bifacial Gain: The additional gain from the back side compared to the power of the front side at the standard test condition. It depends on mounting (structure, height, tilt angle etc.) and albedo of the ground.
