

STRONGHOLD™ | BUTYL

Unirac's **STRONGHOLD™ Butyl** is efficient, dependable, and optimized for **UNIRAC's NXT UMOUNT™** system.

The pre-applied butyl pad removes the need for additional flashing. Just peel the liner, place the attachment, and fasten it to the roof. In addition, the butyl, used throughout the roofing and solar industries for its reliability, conforms to the screws and roof for a robust, dependable seal with no extra work! Couple this with the NXT UMOUNT™ system, and you have a highly reliable, easy-to-install system with integrated wire management.
